

ZeroOutages

Telcom Agent Program

The Perfect Service for Telcom Agents to Bundle...

As all agents know, to stay relevant they must add value. ZeroOutages does just that, by improving your customers Internet service. Best of all ZeroOutages is simply and add-on that you bundle with other services. Easy and painless.

- Do you offer redundancy services with every data circuit you sell? If not, you should, and ZeroOutages makes it easy.
- Do you offer cloud-based services like Microsoft365? If so, then ZeroOutages cloud acceleration service is the perfect bundle.
- Do you offer VoIP services? ZeroOutages offers dynamic VoIP prioritization as part of its service, helping to ensure the highest quality calls.

Contact your master agency and ask about our next generation Internet redundancy services, or email channel@zerooutages.com.

The Internet Reliability Experts !

ZeroOutages' solutions are turn-key, easy to deploy and fully managed. All of our solutions are deployed in conjunction with our partners telcom services. As an agent you can offer one of our paired services, or you can include your own secondary Internet connectivity along with our network management and monitoring services.

Help your customers avoid downtime for VoIP, accelerate cloud-services like Microsoft365, and deliver maximum value via our Active/Failover technology (no added tunnel latency).

Requirements	Maintaining Uptime & Productivity	Optimizing Performance	Ensuring SLAs	Easy to Install
Deliverables	<ul style="list-style-type: none"> • Automated Failover • Accelerated Cloud • Dynamic Prioritization 	<ul style="list-style-type: none"> • Support for up to five ISPs • "Direct-Web" Link Bonding • Best Path Routing 	<ul style="list-style-type: none"> • Deep Path Inspection • Vector Routing • Online Reporting 	<ul style="list-style-type: none"> • ZERO Hardware to Purchase • ZERO Customer Configuration • ZERO Agent Headaches
